

Wall Legend	
External Brick Cavity Wall : 325mm o/a Inner Leaf: 100mm Stranlite aerated blockwork: 3.6N/mm ² min. 630kg/m ³ and thermal conductivity of 0.16W/mK Finished internally with 12.5mm plasterboard on dabs with joints taped and skimmed. Cavity: Fully filled with 125mm Knauf Dritherm 32 Ultimate insulation to achieve a 'U' value 0.20 W/m ² K [or similar approved] Outer leaf: Brickwork to LPA approval	 325
Internal Load-bearing Wall : 100mm 100mm blockwork. Strength min. 7N/mm ² lightweight aggregate medium Density 1350-1600kg/m ³ . To be connected to external wall blockwork using strip ties at 225mm centers.	 100
Internal Non-load bearing Wall : 70mm Metal Stud Stud partitions 100mm o/a/l, partitions finished with 15mm gypsum based plasterboard dry lining with taped joints min. 10 kg/m ² density. All stud partitions between any room and a bedroom of a room containing a wc shall comply with the acoustic requirements of Approved Document 'E' section 5 internal wall type B. min. 40dB reduction with the use of sound insulation between studs.	 70
Internal Load-bearing Timber Buttress Wall : 124mm o/a/l aap. 70mm metal stud + 12mm ply both sides finished with 15mm gypsum based plasterboard dry lining with taped joints min. 10 kg/m ² density.	 70

Ventilation	
Natural ventilation with background ventilators and intermittent extract fans (guidance suitable only for less airtight dwellings) With a design air permeability higher than 5m ³ (h.m ²) at 50Pa	
Minimum equivalent area of background ventilators for natural ventilation as Table 1.7 of AD Part F(1) 2021	
Habitable Rooms	8000mm ²
Kitchen	8000mm ²
Utility	no minimum
Bathroom/ensuites	4000mm ²
WC	no minimum
Please refer to window schedule for total required ventilation	
Notes:	
1. The use of this table is not appropriate in any of the following situations and expert advice should be sought.	
• If the dwelling has only one exposed façade.	
• If the dwelling has at least 70% of its openings on the same façade.	
• If a kitchen has no windows or external façade through which a ventilator can be installed.	
2. Where a kitchen and living room accommodation are not separate rooms (i.e. open plan), no fewer than three ventilators of the same equivalent area as for other habitable rooms should be provided within the open-plan space.	
3. The total number of ventilators installed in a dwelling's habitable rooms and kitchens should be no fewer than five, except in one-bedroom properties, where there should be no fewer than four.	
4. If a bathroom has no window or external façade through which a ventilator can be installed, the minimum equivalent area specified should be added to the ventilator sizes specified in other rooms.	
Minimum extract ventilation rates for intermittent extract systems	
Room	Intermittent extract rate
Kitchen	30 l/s [cooker hood to outside]
Utility	30 l/s
Bathroom	15 l/s
Ensuite	15 l/s
WC/Cloak	6 l/s

GENERAL NOTES (External Window & Door Schedule)

All external window and door schedules are to be read in conjunction with the construction specification

For confirmation of door and window swings/handings, refer to relevant general arrangement floor plans and elevations.

The External door & window openings indicated in this schedule are structural and sufficient tolerance must be allowed for the thickness of the cavity closer and building the window within the structure or post fixing the window

For full details of lintels over openings, refer top Structural Engineers details & specification.

Provide standard double glazed (BS EN 1279-1:2004) draught sealed PVCu windows manufactured to BS 7412

Ground floor windows must be able to be securely half open to avoid summer over heating

External doors to be solid PVC-U u-value 1.2w/m²K
All windows to be Triple Glazed Argon Filled, Low E Glass, PVC-U u-value 1.2w/m²K

Below 800mm measured from floor level for glazed screens and windows and 1500mm measured from floor level for doors and any side panels within 300mm of the door.
Glazing in these areas shall be toughened safety glass to BS 6262: Part 4. Obscure glazing to Bathroom, WC and En-suite
